

Omar Faruque

Senior Tech Project Manager | AI & GovTech Delivery | Cross-Functional Execution

■ Race Course, Dhanmondi Road, Cumilla ✉ omarfaruque32@gmail.com ■ linkedin.com/in/omarfaruquerajim

PROFESSIONAL SUMMARY

Results-driven Senior Project Manager specialising in AI, SaaS, and GovTech delivery. I translate complex technical roadmaps into structured, predictable execution — eliminating misalignment between product, engineering, and leadership. With a track record across distributed teams and compliance-critical environments (ISO 27001, ISO 42001, GDPR), I build execution systems that scale: clear ownership, tight dependency sequencing, and stakeholder trust at every milestone.

CORE COMPETENCIES

Delivery:	Agile / Sprint Planning, Backlog Prioritisation, Release Management, Risk Surfacing
Leadership:	Cross-Timezone Team Coordination, Stakeholder Reporting, Vendor Management
Governance:	ISO 27001 · ISO 42001 · GDPR-ready Architecture, Compliance Documentation
AI & Tech:	RAG Pipelines, Multi-Tenant SaaS, LLM Integration, EU Data Residency
Tools:	ClickUp, Jira, Notion, GitHub, Postman, Slack

PROFESSIONAL EXPERIENCE

Senior Project Manager

KI-Quadrat Systemhaus GmbH (KI²) | Vienna, Austria (Remote) | September 2024 – Present

KI-Quadrat builds sovereign AI assistants that convert municipal institutional knowledge — from websites, PDFs, inboxes, and legal documents — into real-time, trustworthy citizen-facing answers. The platform serves municipalities across Austria, Romania, and Germany with EU-only data residency and ISO-certified compliance built in from day one.

- Own end-to-end execution of a 136-feature product roadmap across a distributed engineering team — from sprint-ready specs through to production deployment.
- Enforce strict dependency sequencing across five KI² products: Citizen Chatbot, Helpdesk, Funding Assistant, Legal Assistant, and Building Permit Generator.
- Lead cross-timezone sprint planning, backlog prioritisation, stakeholder reporting to Austrian and European municipal partners, and QA against acceptance criteria tied to government trust requirements.
- Manage platform compliance posture: ISO 27001, ISO 42001, and GDPR embedded into architecture decisions, not retrofitted.
- Coordinate pilot deployment at Wiener Neudorf — on-premise Ubuntu/Hyper-V environment with WireGuard VPN, LDAP/AD integration, and Cloudflare Tunnel connectivity.
- Drive release management cadence: version-controlled deployments, production rollback plans, and post-release quality monitoring via PostHog and Langfuse observability stack.

Project Manager

AI App Company | Berlin, Germany | November 2022 – August 2024

- Led project planning, execution, and delivery for AI product initiatives with defined scope, clear objectives, and measurable milestones.
- Assembled and managed high-performing cross-functional teams, fostering a collaborative culture and accountability-driven workflows.
- Maintained velocity through risk identification, proactive unblocking, and structured communication channels between stakeholders and engineering.

Digital Marketing Manager

My Digital Consultant | Dhaka, Bangladesh | March 2019 – August 2023

- Designed and executed goal-driven digital marketing strategies, improving SEO performance and growing organic visibility across client portfolios.
- Managed social media content calendars, email campaigns, and performance reporting for SME clients across multiple verticals.

English Teacher

Uncle Sam's American English School | Shenzhen, China | September 2020 – August 2021

- Delivered engaging, adaptive English language lessons to diverse student cohorts, maintaining a positive and structured classroom environment.

International Students Recruiter

Elvon International | Nanchang, China | January 2018 – March 2020

- Recruited and onboarded international students, managing end-to-end application pipelines and building institutional relationships across target markets.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering

Jiangxi Normal University | Nanchang, China | September 2017 – June 2021
